

Announcing CDTA Driver Log Audit Service!

A Value Added Service to Help Keep Your Company DOT Compliant.

Receive:

- Accurate driver daily log audits within 48 hours of receiving
- Detailed compliance service reports
- Driver notification letters
- More time to focus on your business and profitability instead of endless driver log administration and paperwork!

Audits include:

- Hours of service
- Driver violations
- Driver log falsifications
- Missing logs
- Missing signature or eligible

With potential hefty DOT fines in the thousands of dollars for log violations, or worst yet, the possibility of your company temporarily being put out of service due to faulty driver logs, you need to protect your company.

CDTA Driver Log Audit Service is Your Solution!

An audit processing service to efficiently monitor driver hours, violations, and keep your company DOT compliant. It's simple! Send us your logs and we'll take it from there.

Where as most log auditing services require you to mail your driver logs for processing, CDTA gives you the option of scanning and emailing logs to expedite the process.

Scanning and emailing. Logs must be scanned and saved at 200 DPI, 1-Bit, Black/White in TIFF format. Email us your logs. We will process and email you the Driver Daily Audit report within a 48-hour turnaround from time of receiving.

(*Note: If purchasing a scanner, be sure the scanner has capability of saving in the above file format; or contact us for a scanner recommendation.)

If mailing, we recommend sending Next Day or 2nd Day delivery to ensure timely processing and for security purposes.

For more information on CDTA's log audit service, contact a representative at **(888) 908-2382**.
