

CDTA Drug and Alcohol Testing

Evan Dedicated Systems, Inc. has worked with CDTA for years. We have used their drug and alcohol testing program and online management programs with great ease and success. They have also helped us with background screening.

The CDTA staff is very well versed in Federal Regulations and has been of great assistance when we've had any questions. We have been pleased with the work they've done for us.

I recommend them with enthusiasm and will continue to use their services.
